Claim Rejections - 35 USC § 102

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

6. Claims 12 and 13 are rejected under 35 U.S.C. 102(e) as being anticipated by Yoshida et al., U.S. Patent Application Publication No. 2002/0174307.

As per claims 12 and 13 Yoshida discloses a management method for a storage system having a storage device (100), a switch (110) and a computer (105) respectively connected by a network, comprising the steps of:

based on an identifier of a storage area of said storage device and a first address of said computer, performing access control configuration relative to the identifier of said storage area for said storage device (see fig. 1 and paragraph 0041 and 0043); and

converting the first address of said computer into a second address, converting the second address of said computer into an identifier of a port of said switch connected to said computer, and adding the identifier of said port to a virtual LAN for said switch (see fig. 3 and paragraph 0052 and 0057).
